RE: Alternate Unit Well
Mo Sand, Reservoir C
WEEKS ISLAND FIELD
Iberia Parish, Louisiana

Dear Sir:

Application is hereby made on behalf of **Alta Mesa Services, LP** for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the Mo RC SUA, located in the Weeks Island Field, Iberia Parish, Louisiana, for which rules and regulations were established and a drilling and production unit was created for the exploration for and production of oil and gas by Office of Conservation Order No. 146-CC-2, effective November 1, 1994.

1. To permit the applicant to designate and utilize its Myles Salt Company No. 3 Well as an alternate unit well for the Mo RC SUA, said well to be at the location shown on the plat attached hereto.
2. To permit the operator to produce the unit allowable from the existing unit well, the proposed alternate unit well, or both at its option.
3. Except to the extent herein designated, to continue in full force and effect the provisions of Office of Conservation Order No. 146-CC-2.
4. To consider such other matters as may be pertinent to this application.

The Mo Sand, Reservoir C, in the Weeks Island Field, Iberia Parish, Louisiana, was fully defined in Office of Conservation Order No. 146-CC-2, effective November 1, 1994.

The designation of the proposed alternate unit well would permit efficient and economic recovery of the hydrocarbons underlying said unit and is needed to satisfy the market demand for oil and gas from the field.

Any pertinent data relating to the subject application can be obtained, **AT THE COST OF THE REQUESTING PARTY**, from Cambe Geological Services, 6300 Westpark, Suite 400, Houston, Texas 77057 (713-659-8363).
