Re: Commingling Application
Lake Washington Commingling Facility No. 1 (927270)
CM 244 RA SUA; Cockrell-Moran No. 244 Well (LUW 049510)
CM 244 RB SUA; Cockrell-Moran No. 204 Well (LUW 050391)
5000 RA SUA; Cockrell-Moran No. 279 Well (LUW 615450)
Lake Washington Field
Plaquemines Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **SWIFT ENERGY OPERATING, LLC** for the calling of a public hearing after legal notice to consider the following matters:

1. To permit the applicant to commingle production from the following:
 - (a) CM 244 RA SUA, established by Office of Conservation Order No. 149-GGG-3, effective January 19, 2010, and from the designated unit well, the Cockrell-Moran No. 244 Well;
 - (b) CM 244 RB SUA, established by Office of Conservation Order No. 149-GGG-2, effective January 6, 2009, and from the designated unit well, the Cockrell-Moran No. 204 Well; and,
 - (c) 5000 RA SUA, established by Office of Conservation Order No. 149-NNNN, effective February 3, 2009, and from the designated unit well, the Cockrell-Moran No. 279 Well;

by use of monthly well tests at its Lake Washington Commingling Facility No. 1 (Facility Code 927270), in the Lake Washington Field, Plaquemines Parish, Louisiana, in the manner previously approved for other leases and units at this facility, and as further described in the narrative and shown on the schematic attached hereto and made a part hereof.

December 1, 2010

2. To grant such exceptions to Statewide Order No. 29-D-1 as are required by the proposed procedures and to grant such additional authority and approval that may be needed for such procedures.
3. To consider such other matters as may be pertinent.

Swift Energy Operating, LLC ("Swift") is seeking to expand its existing commingling authority to include production from the CM 244 RA SUA, CM 244 RB SUA and 5000 RA SUA at its Lake Washington Commingling Facility No. 1 in Lake Washington Field. It is the opinion of Swift that the use of well tests for allocation of production in the manner proposed will provide reasonably accurate measurement, will not create inequities, and will afford the owner of any interest the opportunity to recover his just and equitable share of production. Swift was unable to obtain 100% approval from the interested parties. Therefore, Swift is requesting this matter to be set for hearing.

Attached hereto and made a part hereof are:

- a) Narrative explanation of the manner in which commingling will be accomplished
- b) Commingling Schematic
- c) List of Interested Owners, Represented Parties, Interested Parties

Copies of this application with attachments are being mailed to the Commissioner of Conservation and to the Lafayette District Manager of the Office of Conservation. Finally, enclosed is our check on behalf of the applicant, Swift Energy Operating, LLC, in the amount of \$2,265.00 made payable to the Office of Conservation and representing the required application fee.

Very truly yours,

LISKOW & LEWIS

Richard W. Revels, Jr.
