RE: Proposed Substitute Unit Well
L-2 Zone, Reservoir A, SUC
L-3 Zone, Reservoir A, SUB
LAKE WASHINGTON FIELD
Plaquemines Parish, Louisiana

Dear Sir:

Application is hereby made on behalf of Hilcorp Energy Company for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of orders pertaining to the following matters relating to the L-2 Zone, Reservoir A, SUC and the L-3 Zone, Reservoir A, SUB, located in the Lake Washington Field, Plaquemines Parish, Louisiana, for which units were established and rules and regulations adopted by Office of Conservation Order No. 149-C-2, effective March 30, 2005 and Office of Conservation Order No. 149-RR-1, effective October 17, 2000 respectively.

FOR THE L-2 ZONE, RESERVOIR A, SUC (ORDER NO. 149-C-2)

1. To designate the Hilcorp Energy Company - LL & E No. 15 (ST) Well, located in Section 38, Township 19 South, Range 27 East, in the Lake Washington Field, Plaquemines Parish, Louisiana, as a substitute unit well.
2. To find that a tolerance of fifty (50) feet for the location of the proposed substitute unit well is necessary to account for the possible variance between the proposed location and the "as drilled" location.
3. To consider such other matters as may be pertinent to this application.

The designation of the well as a substitute unit well is necessary and in the interest of conservation to efficiently and economically drain a portion of the L-2 RA SUC which cannot be efficiently and economically drained by any existing well within such unit. The present unit well, the LL & E No. 15 (OH) Well, ceased to produce from the L-2 RA SUC in June of 2005.

The L-2 Zone, Reservoir A, in the Lake Washington Field, Plaquemines Parish, Louisiana, was fully defined in Office of Conservation Order No. 149-C-2, effective March 30, 2005.

FOR THE L-3 ZONE, RESERVOIR A, SUB (ORDER NO. 149-RR-1)

1. To designate the Hilcorp Energy Company - LL & E No. 15 (ST) Well, located in Section 38, Township 19 South, Range 27 East, in the Lake Washington Field, Plaquemines Parish, Louisiana, as a substitute unit well.
2. To find that a tolerance of fifty (50) feet for the location of the proposed substitute unit well is necessary to account for the possible variance between the proposed location and the "as drilled" location.
3. To consider such other matters as may be pertinent to this application.

The designation of the well as a substitute unit well is necessary and in the interest of conservation to efficiently and economically drain a portion of the L-3 RA SUB which cannot be efficiently and economically drained by any existing well within such unit. The present unit well, the LL & E No. 15 (OH) Well never produced from the L-3 RA SUB.

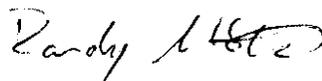

The L-3 Zone, Reservoir A, in the Lake Washington Field, Plaquemines Parish, Louisiana, was fully defined in Office of Conservation Order No. 149-RR-1, effective October 17, 2000.

There are attached hereto and made a part hereof plats identifying the subject units created by Conservation Order Nos. 149-C-2 and 149-RR-1, along with the location of the proposed substitute unit well. Pursuant to the Revised Rules of Procedure, a list of names and addresses of the Interested Owners, Interested Parties and Represented Parties to whom this application is being sent is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation. However, the list will be provided to any party requesting a copy. A diligent effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties as required by the Revised Rules of Procedure.

Finally there is enclosed our check on behalf of the applicant, Hilcorp Energy Company, in the sum of \$1510.00 payable to the Office of Conservation and representing the required hearing application fee.

Sincerely,

LEON E. COMEAUX & ASSOCIATES

Randy McAlister
