, LESS AND EXCEPT that portion thereof, if any, lying seaward of the line three nautical miles from the coast line of Louisiana, as said three mile line has been decreed by the Supreme Court of the United States, as determined by a Special Master appointed therein, in litigation styled United States v. State of Louisiana et al No. 9 Original, in 1975, all as more particularly outlined on a plat in the Office of Mineral Resources, Department of Natural Resources. All bearings, distances and coordinates are based on the Louisiana Coordinate System of 1927, (South Zone).

NOTE: The above description of the Tract nominated for lease has been provided and corrected, where required, exclusively by the nomination party. Any mineral lease selected from this Tract and awarded by the Louisiana State Mineral Board shall be without warranty of any kind, either express, implied, or statutory, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. Should the mineral lease awarded by the Louisiana State Mineral Board be subsequently modified, cancelled or abrogated due to the existence of conflicting leases, operating agreements, private claims or other future obligations or conditions which may affect all or any portion of the leased Tract, it shall not relieve the Lessee of the obligation to pay any bonus due thereon to the Louisiana State Mineral Board, nor shall the Louisiana State Mineral Board be obligated to refund any consideration paid by the Lessor prior to such modification, cancellation, or abrogation, including, but not limited to, bonuses, rentals and royalties.

NOTE: The acreage contained herein, being a portion of State Lease 335, 340 or 341, was subject to the litigation between Texas, Inc. and the State of Louisiana which resulted in the Global Settlement Agreement compromise whereby this acreage was reassigned through various mesne conveyances to the successors of William T. Burton, the original lessee of said leases from the State, (hereinafter otherwise referred to as the "ORRO's) and approved by the State Mineral Board, becoming effective April 25, 1994. Under separate agreement by and between the State and the ORRO's, certain obligations were to be met within a specified time frame or the ORRO's became obligated to release the reassigned acreage back to the State. The obligations were not met within the specified time frame and the State began securing the releases for the acreage contained herein. Due to the extremely large number of ORRO's, their nationwide and worldwide dispersal, the unreliability of available contact information and/or a present inability to obtain full, requisite cooperation, the State has, as yet, not secured releases from certain ORRO's representing approximately a .0258336 interest in this acreage. Accordingly, although the State is diligently pursuing the requisite releases affecting this acreage (the furnishing of which the ORRO's representing the stated decimal interest are obligated), nevertheless, a party obtaining a mineral lease from the State of Louisiana on the acreage contained herein shall do so with full knowledge that a complete release of all specific ORRO interest in this acreage has not as yet been secured and shall assume a business risk commensurate with the unsecured interest release.

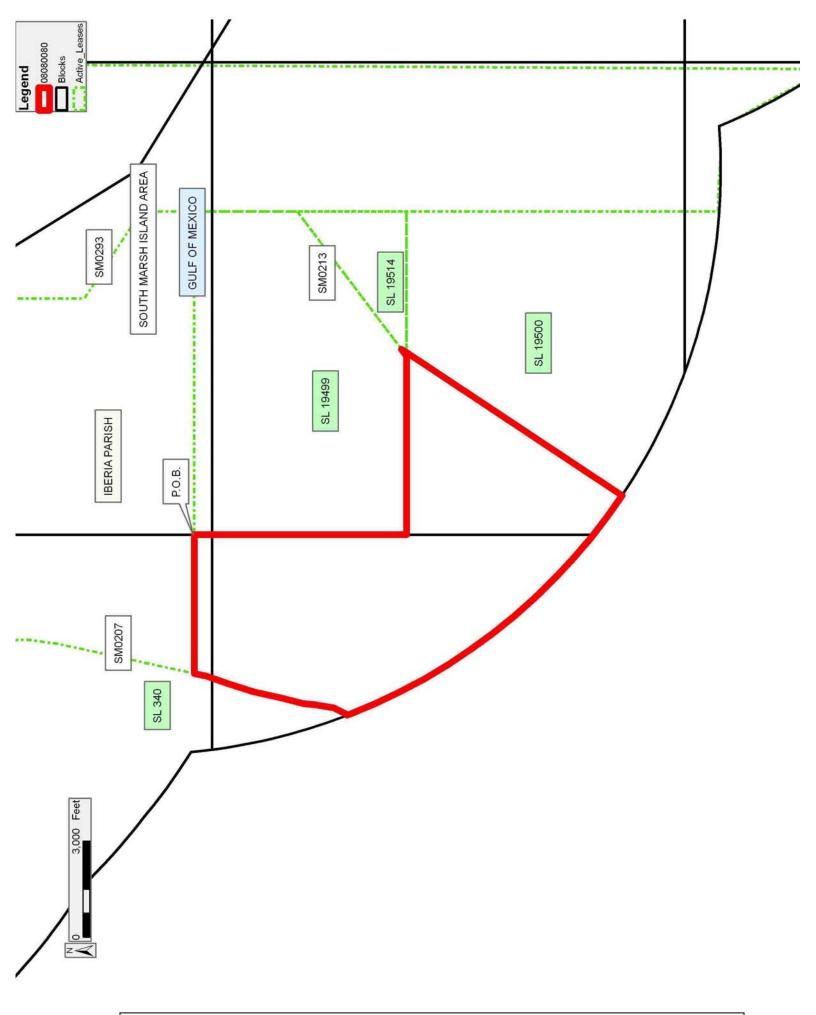

NOTE: The Office of Mineral Resources will require a minimum bonus of \$300 per acre and a minimum royalty of 25%.

NOTE: The State of Louisiana does hereby reserve, and this lease shall be subject to, the imprescriptible right of surface use in the nature of a servitude in favor of the Department of Natural Resources, including its Commissions, and for the sole purpose of implementing, constructing, servicing and maintaining approved coastal zone management and/or restoration projects. Utilization of any and all rights derived under this lease by the mineral lessee, its agents, successors or assigns, shall not interfere with nor hinder the reasonable surface use by the Department of Natural Resources, its Offices or Commissions, as herein above reserved.

NOTE: The Department of Wildlife and Fisheries has designated certain areas in the coastal waters of the State of Louisiana as Oyster Seed Bed Areas. The exact location of those Seed Bed Areas must be obtained from the Department of Wildlife and Fisheries and any work done under a mineral lease from the State of Louisiana may necessarily be conducted in conformity with the rules and regulations promulgated by the said Department of Wildlife and Fisheries for Oyster Seed Bed Areas.
